MEMORANDUM FOR THE RECORD

SUBJECT: Leaks

I heard a rumor this afternoon that Paul Thompson (Poindexter's military assistant) and David Major (NSC staff) might call an informal meeting sometime next week to discuss what options might be provided to Poindexter on how to deal with this problem. Purportedly, Poindexter would use this as background to decide whether an NSPG should be convened and, if so, what its focus should be. Inter alia, participants at such a meeting would include representatives of Justice, State, NSC, DoD and CIA. I understand someone from OGC would be asked to attend.

Based on this, OGC, Office of Security, OCA and C/SECOM are putting their heads together. I have requested that, when they have their thoughts in order, a meeting have arranged to involve the DCI, DDCI-D and EXDIR so that whoever represents the DCI at a meeting at the NSC can accurately reflect the DCI's position.
